🌐 sajjadgul.com  
📍 Islamabad, Pakistan

I'm a dedicated & efficient full stack developer with 6+ years of hands on experience using dotNET framework (MVC, Core) for backend development & Bootstrap for frontend development. I've used C#, SQL, APIs, HTML, CSS, JavaScript/jQuery in my day to day tasks at Argaam.

## 📁 Experience

### Senior Software Engineer

Argaam - Danat (July, 2018 – Present)

### Software Engineer

Argaam – Danat (December, 2016 – June, 2018)

Argaam provides financial market data and analysis, business news, as well as real time coverage of stocks listed across the Gulf to subscribers that include C-level executives, analysts, fund managers and investors. Responsibilities of me and my team include developing and maintaining Argaam.com, its data feeder services, its subsidiaries websites and related business applications.

### .NET Developer

ComSouls Technologies (February, 2016 – November, 2016)

Started working as .NET Developer focused on ASP .Net MVC powered websites and APIs for a number of clients.

### Founder

Website Developers Pakistan (December, 2015 – Present)

While a senior at Bahria University, I founded WebsiteDevelopers.pk as freelance development company to take on freelance projects.

## 🎓 Education

### BSc. Software Engineering

Bahria University (September, 2012 – June, 2016)

### CompTIA A+ Certification

PNS Johar (December, 2011 – February, 2012)
